

Clients in the Community

SPREADING AWARENESS & GETTING INVOLVED

FCB's clients are always encouraged to go out into the community and get involved. Community integration activities are a great way for clients to gain self advocacy and orientation & mobility (O&M) skills, as well as bring awareness of blindness and visual impairments to the community.

EARLY VOTING TRIP

Client poses proudly with her "I Voted" sticker.

On November 1st, FCB drove many clients to visit the Supervisory of Elections office to participate in early voting. This activity was part of FCB's new Client Services Day, a monthly program that gives clients the opportunity to receive assistance and transportation to take care of errands, fill out forms or other needs they may have.

FCB is in need of volunteers for this new program, so if you would like to work hands-on and truly make a difference in our clients' lives, please give us a call at the main office.

CHILDREN'S PROGRAM VISITS A CORN MAZE

For White Cane Awareness month, the Children's Program ventured to Coon Hollo to experience a corn maze and practice their O&M skills. This trip was a great way for the children to navigate in unfamiliar, close-quarter terrain. The students were also able to enjoy other activities offered at the event including a train ride, tire swing, animal farm, and burlap slides.

The trip was covered by the Star Banner as a way to inform the public about the White Cane laws and bring awareness to the general community.

Student exploring start of the maze

ST. AUGUSTINE & FLAGLER COLLEGE TOUR

The Transition students traveled to St. Augustine for a three-day weekend trip. The students visited Flagler College for an Open House on November 12th to tour the school, meet with the disabilities office and participate in mock classroom experiences based on their career interests.

After the Open House, the students ate dinner at a local restaurant and explored St. Augustine by taking an after-hours "haunted" tour at Ripley's Believe It or Not Museum.
